

DMXcat-E™
DMX Ethernet MIDI SMPTE

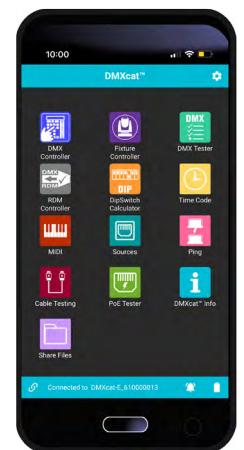

NEW **DMXcat-E™** (P/N 6100)

DMXcat-E Expands the DMXcat® System by Allowing Ethernet Control of a Lighting Fixture

City Theatrical's new! DMXcat-E™ (P/N 6100) is an expansion to City Theatrical's award-winning DMXcat® Multi Function Test Tool system of solutions that allows for Ethernet control of a lighting fixture. As more lighting manufacturers implement RDM Net into their fixtures, the DMXcat-E is the essential test tool for the future of lighting.

In addition to all the functions DMXcat users currently enjoy, including utilization of the DMXcat free smartphone application for iPhone and Android, DMXcat-E allows users to:

- View and send Ethernet protocols, including ArtNet and sACN, as well as DMX timings and PoE voltages
- Perform cable testing of 5-pin XLR and Ethernet cables via included external remote
- Read in SMPTE timecode, MIDI timecode and regular MIDI, bookmark timecode, and save to file functions for ease of use
- Comes with a flashlight, buzzer, and USB-C charging

DMXcat app for iPhone when connected to DMXcat-E hardware
