For Immediate Release

City Theatrical Launches Two Standard Top Hats for High End Systems Halcyon Fixtures

City Theatrical now offers two standard Top Hats as beam control accessories designed to fit ETC [High End Systems Halcyon](#) Gold and Titanium lighting fixtures. These Top Hats were developed based on City Theatrical's understanding of the unique accessory needs of lighting professionals, and the high demand for this moving light fixture in the market. Each new Top Hat for High End Systems Halcyon is a beam control product that offers control of stray beams and light spill.

City Theatrical's engineers and craftspeople design and create beam shaping lighting accessories, like the new [Top Hat for High End Halcyon Gold \(P/N 2720\)](#) and [Top Hat for High End Halcyon Titanium \(P/N 2725\)](#), from their New Jersey-based factory. This product launch also includes a new Screw Kit for Top Hats for High End Halcyon fixtures (P/N 104-00792) to complement the products and assist in installation to the light fixtures. These products are being used on entertainment projects around the world, including [Once Upon a One More Time](#) on Broadway, with lighting design by Ken Posner.

City Theatrical works with designers and manufacturers every day to develop new beam control products. There are currently dozens of unique variations of City Theatrical [Standard Top Hats](#) available. City Theatrical Top Hats help prevent light spill from modern LED fixtures, which can extend nearly 180 degrees from the light source.

City Theatrical currently offers various styles of beam control accessories for moving light fixtures ranging from manufacturers such as ETC® and High End Systems, CHAUVET®, GLP®, Martin® Lighting, and VARI-LITE®. These standard beam control accessories for moving light fixtures are available through City Theatrical's vast [Dealer Network](#). End users of moving lighting fixtures seeking beam control accessories not currently available as standard City Theatrical products can order them through City Theatrical's [Custom Manufacturing](#) department.

Installation Guides for the new Top Hats for High End Systems Halcyon Gold and Titanium are available in the downloads section of the [ETC and High End Systems Accessories](#) product page on the City Theatrical website.
