QolorFLEX®

QolorFLEX® 2x2.5A 900MHz Multiverse® Dimmer (P/N 5917) is a small, constant voltage, two-output dimmer designed to be mounted in small spaces such as props, costumes, wands, and candles. It can be controlled wirelessly using City Theatrical’s Multiverse or SHoW DMX Neo wireless DMX/RDM technology, or with wired DMX. This dimmer provides 20-bit PWM resolution and four DMX personality options (two variations of 8-bit and 16-bit control) for extremely smooth dimming at the low end of the dimming curve. Configuration is performed using RDM, such as with a City Theatrical DMXcat®, or with City Theatrical’s USB Configuration program for PC/MAC. A plastic case is included with the QolorFLEX 2x2.5A Multiverse Dimmer to allow easy mounting to scenery while enabling removal of the dimmer from the case for wiring and configuration. This dimmer is designed and built in the USA by City Theatrical.
