"To celebrate the show's 15th anniversary, NBC and Bravo planned a special event in Miami that included five supersized episodes.

My creative vision was to showcase the unique style and architecture of South Beach, complemented by the vibrant nightlife of the local club scene. I achieved this using vivid colors in the scenic LED neon, and pixel maps running through large-faced wash lights. I worked closely with my director, Rocco Flammia, to frame each camera shot to fill the air with as many pencil-sized beams of light as possible.

I am grateful to have a fantastic team of talented collaborators; this ambitious project would not have been possible without their support. City Theatrical products significantly facilitated our efforts, providing troubleshooting tools and high-quality LED solutions suitable for HD camera recordings."
